1. **Ongoing Project status reports**

Consent Order: Nothing to report at this time.

Osborne Lagoon: Nothing to report at this time.

Act 537 Plan: The Plan is currently under review by our member municipality's Planning Commissions, the Chester County Planning Commission and the Chester County Health Department. The 30 day Public Comment Period ends July 20 and as of Friday, OASA has not received any comments. Based on the questions and issues that were raised during our presentations to the Member Planning Commissions, Steve Gabriel put together the email that is in the packets. Based on his

conversations with Kelly Sweeney, DEP would really prefer that OASA make every effort to submit the Plan by August 31, 2010. At this point, it is doable but some municipalities may need to have Special Supervisors Meetings to accomplish it. 6 comments have been received to date and they will be responded to. Chairman, Bob Yeatman and Ed will work on setting up an Expansion Committee Meeting as soon as possible to discuss the accuracy of the Plan and the responses received to date. Steve Gabriel will be asked to attend this meeting. This meeting will be set up, allowing members that have not yet read the Plan, to read it.

A motion was made for the Board to direct the Executive Director to obtain from Steve Gabriel, Consulting Engineer; a written statement stipulating that he has read the Act 537 Plan in sufficient detail and certifies to the Board that it is complete, accurate and suitable for submission to the Public and DEP in the Act 537 Process, (F. Lobb, R. Cantarera). It was requested that Ed Lennex provide to the Board, full copies of the comments received to date. Quite a few members questioned what specific concerns were. Motion and second withdrawn.

Future Disposal Fields: Nothing to report at this time.

Pretreatment Regulations: Nothing to report at this time.

Lincoln/Brick Street Spray Field Analysis: Nothing to report at this time.

New Treatment Plant: Nothing to report at this time.

Funding Assistance: The USDA loan application is in Washington and we are awaiting their final determination.

Sewer Line Extension Requests: Ed is still working on a draft response letter to East Nottingham Township.

2. **Developer Activity – Oxford Commons Agreements –**
Although the Board approved documents last month for this project, the Developer's Bank and Walmart have requested some additional changes. Kathy Gray and Ed have reviewed the changes and they are acceptable. Since the Bank is putting up the funding for the entire project, they and Walmart wanted the same rights and privileges afforded the Developer to assure the project would be completed. After discussion of the Revised Agreements, Kathy Gray reported that she and Ed Lennex recommend approval of the revised forms. Motion made, seconded and passed to approve the revised agreements as submitted. (N. Pagano, P. Reynolds)
3. **Operations Report:**
 - Effluent Wet Well Valve Replacement Project:** Due to weather conditions and the depth of the lagoons it has been agreed to that we will wait until fall to undertake this project.
